## EXPERIENCE

### Manual QA Engineer - Part Time

ShellExa InfoTech Pvt Ltd

Noida, India

12/2023 - 06/2024

- Conducting manual testing on various software applications
- Identifying, documenting, and tracking software defects
- Collaborating with the development team to ensure software quality
- Executing test cases and reporting results
- Ensuring that the software meets business requirements and quality standards

### Associate Quality Engineer QA

NOVELVOX SOFTWARES INDIA PVT. LTD.

Faridabad, India

05/2021 - 01/2023

#### Responsibilities:

- Conducted manual testing on various software applications to ensure functionality, usability, and adherence to specifications.
- Developed and executed test plans, test cases, and test scripts based on product requirements.
- Identified and documented software defects, tracked issues through resolution, and verified fixes.
- Collaborated with cross-functional teams including developers, product managers, and designers to communicate bugs and ensure timely resolution.
- Participated in requirement analysis and reviewed functional and technical documentation.
- Contributed to the improvement of testing processes and methodologies.

#### Key Achievements:

- Implemented a comprehensive test suite that reduced the average bug discovery time by 20%.
- Recognized for exceptional attention to detail, resulting in the identification of critical issues before software release.
- Led the training sessions for new team members, enhancing their understanding of testing procedures and product knowledge.

## PROFILE SUMMARY

Highly skilled and motivated QA Engineer with 3+ years of experience in software testing and quality assurance. Proficient in Java and Selenium for developing automated test scripts. Strong understanding of software development lifecycle (SDLC) and software testing lifecycle (STLC). Adept at identifying and resolving issues to ensure smooth and efficient software performance.

## EDUCATION

### Bachelor of technology

Walchand collage of engineering

07/2016 - 10/2020

7.62CGPA, Sangli

Courses

- Computer science and engineering

### HSC

Yeshwant Mahavidyalay

06/2015 - 06/2016,

83.23 %, Nanded

Courses

- Science

### SSC

New English School jamner

06/2013 - 06/2014,

87.80%, Jamner

## TECHNICAL SKILLS

- **Testing Tools:** Selenium WebDriver, TestNG
- **Programming Languages:** Java, SQL
- **Web Technologies:** HTML, CSS, Bootstrap, JavaScript
- **Frameworks:** Page Object Model (POM), Data-Driven Framework
- **Version Control:** Git, GitHub
- **Build Tools:** Maven
- **CI/CD Tools:** Jenkins
- **Bug Tracking Tools:** JIRA, Bugzilla
- **Databases:** MySQL
- **Other Tools:** Postman

## EXPERTISE

- Manual Testing
- Test Case Design
- Regression Testing
- Bug Tracking
- Browser Compatibility Testing
- Defect Documentation
- Test Plan Creation
- Agile Methodologies
- System Testing
- Load Testing using JMeter
- API Testing using Postman

## ACHIEVEMENTS

- **Finalist in SIH 2K19 Software edition** Developed the web based application which provides the live tracking of patient and finds the nearby hospitals and ambulance service based on location tracking
- **Finalist in WCE Hackathon 2k19** Organised by ACM Student chapter club of wce

## Skills Utilized:

- Proficient in manual testing methodologies and tools (e.g., Jira, TestRail).
- Strong understanding of software development life cycle (SDLC) and agile methodologies.
- Excellent analytical skills and ability to troubleshoot complex issues.
- Attention to detail in identifying, documenting, and tracking defects.
- Communication skills to effectively collaborate with multidisciplinary teams.

### Software Trainee QA

#### Afour Technologies Pvt Ltd

Pune, India

07/2020 - 04/2021

- Assisted in the testing of software applications to identify bugs, usability issues, and functional errors.
- Executed test cases and documented results using tools such as JIRA and TestRail.
- Participated in regular team meetings to discuss testing strategies and report on progress.
- Collaborated with senior QA engineers to learn best practices in manual testing methodologies.
- Contributed to the creation and maintenance of test documentation, including test plans and test cases.
- Conducted regression testing on software updates to ensure previous functionalities were unaffected.
- Actively participated in training sessions and workshops to enhance skills in software testing techniques and tools.
- Provided feedback on user interfaces and reported issues to improve the overall user experience.
- Worked closely with developers to communicate identified issues and verify bug fixes.

### Software Intern

#### Afour Technologies Pvt Ltd

Pune, India

01/2020 - 07/2020

- Participated in the testing of various software applications under the supervision of senior QA engineers.
- Executed manual test cases and documented test results for multiple software products to ensure quality and functionality.
- Assisted in identifying, documenting, and reporting software defects using bug tracking tools (e.g., Jira, Bugzilla).
- Contributed to the creation and maintenance of test documentation including test plans, test cases, and test reports.
- Collaborated with cross-functional teams, including developers and product managers, to communicate issues and improve product quality.
- Conducted regression testing on software updates to ensure existing functionalities remained intact.
